Leadership Skills
Enhancement Programme

Leadership Skill Enhancement Programme

Digital India a flagship programme of Government of India, aims to transform India into a digitally empowered society and knowledge economy. In the context , Government of India is committed to realize the potential of North East states and accelerate its progress. Skill Enhancement Programme (SEP) is one such initiative taken by Government of India for accelerating the implementation of e-Governance projects by building capacities in the North East region.

Background

Many e-Governance Projects in the North East region are under the initial phase of implementation, and it is imperative to build the necessary capacities in the Government to handle e-Governance projects.

SEP aims to develop e-Governance champions within the Government at state level to lead and manage MMPs under NeGP or other e-Governance projects.

It also facilitates a broad understanding of factors that result in success of e-Governance projects and participants learn application of knowledge and skills on e-Governance projects.

Skill Enhancement Programmes (SEP)

Likely outcome of the programme, is to develop e-Governance Leaders within the Government at the State level to envision, lead, and support Mission Mode Projects (MMP) under the NeGP or other e-Governance projects.

The officials who will participate become the virtual cadre for North East States as and when constituted by respective states. In that context, this programme will help to enhance the skills of the North East State Officials.

Leadership Skill Enhancement Programme (LSEP)

Programme Objectives

- To sensitize the senior officers within the Government on the need to transform government service delivery structures and mechanisms through definitive policy-making and visioning for e-Governance with special emphasis on Digital India & e-Kranti (NeGP-2.0)
- Discuss strategies which can be adopted for overcoming issues and challenges to accelerate the pace of e-Governance in North East region.
- Expose the participants to e-Governance projects in India and to help them widen their understanding and vision for e-Governance within their departments.

Course Overview

LSEP course components include Conceptual learning, Case Studies, Best Practices, Group discussions and field visits.
