About SeMTs

The National e-Governance Plan (NeGP) is an ambitious program of the Government of India with the vision to "Make all Government services accessible to the common man in his locality, through common service delivery outlets and ensure efficiency, transparency & reliability of such services at affordable costs to realize the basic needs of the common man". With this vision, the Government of India (GoI) approved the NeGP to lay the foundation for the long term growth of e-Governance in the country.

NeGP proposes to achieve its objectives through:
- Deployment and scale up of select "Mission Mode Projects" (MMPs - projects with significant citizen interface)
- Creation of a National IT backbone for fast, reliable and efficient connectivity, data storage and access,
- Set up of Common Service Centers for delivery of citizen services
- Creation of Internet portals for 24x7 access to Government information and services.

With this background, the Government has approved the Capacity Building (CB) Scheme for taking NeGP forward across the country in all the States & UTs. The CB Scheme is mainly for provisioning technical & professional support to State level policy & decision-making bodies and to develop specialized skills for e-Governance. The CB Scheme will support Capacity Building through various means such as engaging experts, developing skills and imparting training and supporting the creation of State e-Governance Mission Teams (SeMTs) and Project e-Governance Mission Teams (PeMTs).

This team shall oversee project execution, manage implementation and deal with technology, process, external Agency management & change management related issues.

A total of approximately 328 professionals will be recruited for staffing SeMTs across all 35 States and UTs. These requirements are being sourced from these modes:
- Deputation from various Government, State Government, PSU and Autonomous organizations to NeGD, Media Lab Asia
- Recruitment of candidates from open market to NISG.

The SeMTs would be responsible for undertaking the groundwork for providing for an overall direction, standardization and consistency through Programme Management of the e-Governance initiatives in the State. All interdependencies, overlaps, conflicts, standards, overarching architecture, security, legal aspects, etc. across projects as well as core and support infrastructure shared across several projects would fall under the purview of SeMTs and will work in the following key domains:
- Undertake Strategic Planning
- Provide Project Consultancy
- Provide Project Implementation and Post Implementation support
- Facilitate setting up of PeMTs
- Perform core SeMTs activities
- Day to day SeMTs Operations

The SeMTs require personnel with appropriate background and aptitude who have adequate skills and experience in performing work across the project domains. The SeMTs personnel will require the following broad expertise areas:
- Programme Management
- Change Management
- Technology Management
- Financial Management
